EDUCATION

Motilal Nehru National Institute of Technology <i>Bachelor Of Technology in Computer Science and Engineering</i>	Allahabad, Uttar Pradesh Aug. 2024 – May 2028
D M G Public School, Sadiq <i>Intermediate Education (C.B.S.E)</i>	D.T. Faridkot, Punjab Aug. 2023 – April 2024
Dashmesh Public School <i>Secondary Education (C.B.S.E)</i>	Faridkot, Punjab Aug. 2021 – April 2022

PROJECTS

SQL Learning Assistant <i>Python, LangChain, ChromaDB, Google Gemini, Plotly</i>	July 2026 – Aug 2026
•  Github Repository • Built an end-to-end RAG web app enabling users to query unstructured PDFs using LangChain, ChromaDB, and HuggingFace embeddings. • Integrated Google Gemini via custom prompt chains for context-bounded answers and automated fallbacks. • Implemented dynamic data extraction to parse natural language requests into JSON and render interactive Plotly visualizations.	
EstateSync <i>Java, JavaFX, JDBC, MySQL, Apache POI, iText</i>	June 2026 – July 2026
•  Github Repository • Developed a desktop application for managing customers, properties, and real estate deals using Java and JavaFX. • Implemented authentication, customer management, property management, and deal management with complete CRUD functionality. • Integrated MySQL using JDBC with prepared statements, joins, transactions, and BLOB storage for images. • Engineered an advanced property search and filtering system, improving property discovery speed by 90% while managing a database of 500+ properties • Designed modular MVC-inspired architecture to improve code maintainability and application scalability.	
Medicose <i>React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Cloudinary</i>	June 2025 – July 2025
•  Frontend,  Backend • Developed a MERN-stack application connecting donors and recipients for medical supplies through a centralized platform. • Designed MongoDB schemas and implemented secure JWT authentication, authorization, and CRUD operations. • Integrated advanced search, filtering, record management, Cloudinary media storage, and Gemini-powered assistance. • Built a responsive frontend with React and Tailwind CSS, supporting seamless navigation for an estimated 1000+ daily users across mobile and desktop devices	
AI Fitness Coach <i>Python, CrewAI, Model Context Protocol (MCP), Tavily API</i>	July 2026 – Aug 2026
•  Github Repository • Built a hierarchical CrewAI system leveraging Model Context Protocol (MCP) servers to dynamically discover tools and automate real-time web research. • Developed an interactive Streamlit application featuring multi-agent workflow coordination, custom CSS animations, and live session state management.	

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, C/C++, HTML/CSS
AI, RAG & Agentic Tooling: LangChain, CrewAI, Model Context Protocol (MCP), HuggingFace Embeddings
Web & Desktop Frameworks: React.js, Node.js, Express.js, Streamlit, JavaFX, Tailwind CSS, Bootstrap, Angular.js
Databases & Vector Search: MySQL, MongoDB, ChromaDB
Cloud Platforms & APIs: Google Gemini API, Tavily API, Cloudinary, Aivencloud, Vercel, Render, Netlify
Libraries & Developer Tools: Git, GitHub, Plotly, Apache POI, iText, JWT, VS Code, IntelliJ, Postman
Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Web Development, Machine Learning, Deep Learning
